Make Your Car **INVISIBLE** To Red Light & Speed Cameras

"Before I started selling PhantomPlate products, I used to work as a bank manager. I started selling PhotoBlocker Spray and covers part time and made \$2500 my first month! By my eighth month, I was making \$11,000 per month! This business is a dream come true. The product sells itself. No one likes to get a ticket. Everyone sees the benefits of having PhantomPlate protection. I highly recommend everyone to try it. It worked for me"

- John V. Arizona

"Before I became a PhantomPlate dealer, I was a fire fighter. After I started this business, I made \$1,000 my very first month. Today I make more than what I did in my job and now I can stay home with my 3 kids. I love this business. Look its simple. Cameras are popping up all over the place and people are getting tickets left and right. PhotoBlocker spray is the antidote. It sells itself. I show my customers the powerful test video of PhantomPlate products and next think I see is people reaching in to their wallets ready to buy. The word of mouth advertising is tremendous. It seem like everyone I sold to had at lest referred me to 5 people."

- Linda K. Maryland

"Before I became PhantomPlate dealer I worked 10 hour days in a high-pressure job and I wore out my car commuting back and forth to work. Now, I make \$3000 - \$5000/ month working part time. PhotoBlocker sells itself. Everybody hates traffic tickets. Show'em the demo videos of the Police testing the product, saying it works and that its legal and blam you get a sale every time."

- Sally M. California
